

Supplied as a PDF with bleed & crop marks - as per diagram below.
Fonts converted to curves/outlines & in CMYK colour

The **Orange** area is the actual finish size of the Business Card (55mm x 90mm)

The **White** line is the edge of the 'Safe Zone'. No Logo's or wording should be nearer than 5mm to the edge of the card (unless it bleeds off).

The **Blue** area is the bleed. If you want an image or text to go to the edge of the card, the image must continue for 2.5mm. This will make sure there is no white showing. The bleed is trimmed off.

Files not supplied to these specs may incur extra design charges
Double Sided Cards should be supplied as one file (2 Pages)
